Education

Bachelor of Science in Computer Science

Missouri State University

Springfield, MO

Expected May 2027

Computer Science Coursework

Baylor University

Waco, TX

2017 – 2021

Technical Skills

Languages: C, C++, Python, Java, JavaScript, SQL, Bash, x86 Assembly, HTML/CSS

Frameworks & Libraries: React, Flask, STL

Developer Tools: Git, VS Code, Vim, CMake, Maven, Gradle, Vite, JUnit, Valgrind, IDA

Concepts: Object-Oriented Programming, REST APIs, C++ Templates, Serialization, Systems Programming

Platforms: Linux, Windows, Node.js, Supabase

Projects

Wolf Peach | wolfpeach.vercel.app · github.com/hlong200/wolf-peach

CSC 365

Home Gardening Guidebook

Spring 2026

- Designed and built React web app with Node.js/Vite supported by Supabase backend with user authentication and admin portal
- Implemented a query and four-parameter filtering and sorting system allowing efficient lookup of targeted plants in Supabase
- Led a three-person team from proposal pitch to final presentation; managed code review and merging for the shared repository

Sudoku Deobfuscation

CSI 2334

Reverse engineering

Fall 2018

- Analyzed a compiled x86 binary with IDA, Binary Ninja, and radare2, tracing an infinite output loop, triggered by a failed password-style check, that blocked access to a hidden Sudoku game; presented findings to the class
- Patched the executable to remove malicious code, restore the game, improve usability, and add a hidden cheat code

Work Experience

Personal Care Assistant, Private Family

Ozark, MO

via Acumen Fiscal Agent

Oct. 2025 – Present

- Provide in-home care and structured social engagement for two autistic children

Merchandising Associate – Plant Service

Springfield, MO

Lowe's Home Improvement

Mar. 2025 – Sep. 2025

- Coordinated with team members to maintain care schedules for large live inventory
- Developed effective plant displays that resulted in record-high sales for the department, with over 90% of a single shipment sold
- Coordinated plant display setup and stocking priorities on days department leads were absent or occupied
- Advised seasonal staff on plant care and helped divide care duties, while building customer service and cross-department teamwork skills
